You will notice that in many cases there is an overlap between the Match#2 start time and the Match#1 soft caps. The purpose of this is to ensure that teams playing the late matches are ready to start playing should the early matches finish early. If and when Match#1 goes to a Soft Cap, Match#2 SHOULD START NO LATER THAN 10 minutes after the end of Match#1.

NOTICE: NO TIME OUTS ARE TO BE CALLED DURING A SOFT CAP OR 5 MINUTES PRIOR TO A HARD CAP

Soft Time Cap

When a 'Soft Time Cap' is reached, 5 points are added to the score of the currently leading team (with a cap at 7 points), and the game is played to that mark and ends with the first team to reach that point, winning by two or until the cap is reached. This rule will not be used to extend a game past the standard 25 point win, but would be used to enforce an upper cap on point.

Examples:

- The Soft Time Cap is reached in game 4 with the score 11-8. The game is then played to 16 points (win by 2), with a cap at 18 points.
- The Soft Time Cap is reached in game 4 with the score 22-20. The game is still played to 25 points (win by 2), with a cap at 29 points.
- The Soft Time Cap is reached in game 5 with the score 1-1. The game is played to 6 points (win by 2), with a cap at 7 points.
- If the 'Soft Time Cap' occurs in the break between games, a game to 5 points, with a cap at 7 points is played.

Hard Time Cap

When a 'Hard Time Cap' is reached, play continues until the end of the point in play. The team in the lead at the end of that point is declared the winner. Should the teams be tied at the end of that point, one more point is played to determine the winner. **Note: the official *should* announce the possibility of a hard cap at least 5 minutes before the hard cap time.** Captains may remind the official.

4 GAME NIGHT TIE-BREAKER

Where only 4 games are played, and each team has won 2 games, the winner is determined by:

(a) Greatest difference between points scored and points against for the 4 games. This will only be done IF THERE ARE 4 FULL GAMES PLAYED (if the 4th game ended with a time cap, it is still considered as a completed game and will be counted).

(b) If still tied, the winner is the winner of 2 of the first 3 games played.
